Dear reviewer,

I have just finished assigning the submitted papers. I'm honestly not sure if you already received a notification of the CMT system, or whether you have to log in yourself and see. Perhaps you still even have to create an account in order to log in. In any case, please navigate here:

https://cmt.research.microsoft.com/ACMMM2015

and once inside the system you should have been assigned the 'reviewer' role and you will find two or three papers waiting for you. For those that have two papers, once the last team uploads their version tomorrow night I will assign them to you.

Please finish the review within two weeks from now, i.e. before midnight Tuesday 21 July.

That way we still have a day or two to discuss or sync up amongst each other if needed before I have to send out the notifications according to the conference schedule.

Thanks!
Bart Thomee
